

The Judith Graley Performing Arts Centre

Information
Brochure

Introduction

The Performing Arts Centre was built with the support of Judith Graley who represented the electorate of Narre Warren South between 2006 and 2018. Prior to entering politics, she worked in education as a teacher and university tutor. Her commitment to education saw her become Parliamentary Secretary for Education in the first Andrews Government. Throughout her career in Parliament, Judith strongly advocated for our College and her support was instrumental in delivering the Performing Arts Centre to the community of Narre Warren South. The Judith Graley Performing Arts Centre or the PAC as we call it, has the capacity to seat 380 people. When not in use by NWSP-12 for our classes we have the ability to hire out the facility to those in the community.

Theatre

Our fold up theatre style seating is comfortable and raked to ensure that everyone has an unobstructed view of the action. The theatre was designed with excellent acoustics so all of your guests can enjoy the show and in air conditioned comfort.

About

The control room is equipped with a digital Yamaha LS9 64 channel sound desk, ETC lighting desk and screen projection system. The entire building was professionally 'wired for sound' with stage boxes and patch bays throughout. We have a full complement of vocal, instrument and wireless microphones to cater for almost any performance.
